DOLL MEASUREMENTS & SIZING

EDEN AVA COUTURE patterns are drafted to fit Mattel® American Girl Dolls. Pre-Mattel® dolls (and even some early Mattel® dolls) have a chunkier torso and their biceps are larger as well. Depending on the doll you're sewing for, adjustments may need to be made to the pattern. Often, just adding a bit to the seam allowance helps, but it is a very good idea to measure your doll before you beginning.

The photo illustration shows the difference in measurements.
